Editor in Chief
International Journal of Energy Economics and Policy

We want to express our interest in submitting the manuscript entitled " Research trend on Nuclear Energy from 2008 to 2018: A Bibliometric Analysis". We attest that this manuscript has not been published previously, nor submitted for publication in any other journal. The main objective of this article is to present the results of the bibliometric study focused on Nuclear Energy for the period 2008-2018. The data were collected through Web Of Science and subsequently analyzed using the Histcite software.

The article was developed so that we can assure that It will be an excellent contribution for the engineers that work implementing concepts of nuclear energy in industrial processes and for researchers whose main focus of study is nuclear energy. We hope the paper is suitable for publication in the International Journal of Energy Economics and Policy.

If you have any questions, do not hesitate to contact us through the corresponding author.

Sincerely,

Luis Guillermo Obregón-Quinones, Ph.D.
